

How to  
count to five

# Lesson plan:

Lesson plan for nursery/reception age children to help them learn to count to five; children count radish pictures, use their fingers and begin to use marks on paper to recognize and represent numbers.

Worksheet 1 –

Count the radishes and match them with the correct number by drawing a line between the radishes and the numbered boxes.

Worksheet 2 –

Count the radishes and write the correct number in the boxes below.

Worksheet 3 –

Colour in the right number of radishes using the number from the box below.
